

RAJ PUMPING SYSTEMS

ALL TYPES OF WATER PUMPING SYSTEMS & EQUIPMENTS

(Since 1995)

PUMPING SYSTEMS WITH CENTRIFUGAL PUMPS

Building Trust

System with End Suction Pump

Salient features

- Lowest life cycle cost
- Energy saving coating for pumps
- Packaged pump house
- Systems are most efficient & consume least Energy
- No Hydraulic & Electrical Surges
- Pump House Turnkey Contracts from design till commissioning
- Pumps Operation-Pumps in parallel or in series
- Easy Installation - One Electric & Two Hydraulic Connections.
- Custom Design and operations available to meet any demanding situation.

Packaged Pumping Systems -

Incorporating multiple Centrifugal Pumps, High Efficiency Motors, Bladder Vessel, Control Panel, Isolation Valves, Air release & vacuum release valve, dismantling joints, electrical actuators valve, solenoid valves. Steel Structure, Earthing Kit, Expansion Joints, Non slam NRV for each pumps, Pressure Control Unit, Pressure Gauge, Delivery Header, Electrical Equipments are chosen from the wide range of reliable manufacturers.

Optional Accessories -

Control Panel - VFD, HMI, PLC, Soft Starter, Mobile Phone Starting facility, Remote Start and Stop Facility.

Steel Piping & Structural Steel - Coating Hot Deep Galvanized, Fiber Glass, Kirloskar Corrocoat, Epoxy Coating.

Flow Measurement - Ultrasonic Flow meter, Water meter

Booster System with Split Case Pumps
