

# RAJ PUMPING SYSTEMS

ALL TYPES OF WATER PUMPING SYSTEMS & EQUIPMENTS

(Since 1995)

Building Trust

## FIRE FIGHTING SYSTEMS & SAFETY EQUIPMENTS INSTALLATION & SERVICES

### Applications

- High Rise Buildings
- Commercial Complexes
- Airports & Ports
- Warehouses
- Hospitals, Schools, Colleges
- Oil and Gas on Shore & off Shore Platforms
- Petroleum and Petrochemical Complexes
- Power Stations and Transformer Stations
- Manufacturing and chemical Industry

We undertake Turnkey Projects from design to supply and installation of total fire protection and detection and suppression system in addition to the conventional fire protection / detection like Hydrants, Sprinklers, High / Medium Velocity Water Spray system. Smoke and Heat Detection System, chemical foams included AFFF, Foam dispensing equipments, Foam / Water sprinklers system. Analog addressable Intelligent Fire Alarm system. CO<sub>2</sub> system. Dry chemical Powder extinguisher system. Linear Heat Detection including all types of detectors. Fire Extinguishers. FM 200 system Existing Fire Fighting system Renewal in chemical / petro chemical Co. Annual maintenance contract for hydrant, Sprinkler, Fire Alarm System.

### Fire Pump Packages

Pumps-End suction/horizontal split case/vertical turbine/multi outlet. Diesel engine driven pump set, electrical motor driven pump set, Jockey pump set, bladder vessel, control panel for all equipment's with battery, battery charger & stand by battery, fuel tank with level indicator, cooling water piping, cables with Lugs and leads, flexible pipe for exhaust connection, suction delivery header with isolation valves, non slam NRV, flexible below, remote control panel with potential free contact for BMS compatibility. All above equipment's are mounted on common skid with anti vibration mounting.

Booster Pump Set

Diesel Engine Pump Set

Jockey Pump Set
